## Afternoon Tea Is Charming Affair

Visiting Physicians And Wives Are Received At Picturesque Pine Top

Receiving distinguished guests and giving them the flattering entertainment due their exalted positions is one of our interesting social problems these days. However, as long as the Ouachita river is navigable and boat owners continue to place them at the disposal of those who are entertaining notables, entertainment in Monroe will always be assured.

The boating party on Tuesday was one of the highlights of the three-day program arranged for the entertainment of prominent physicians and their wives attending the three-day conference of the Southern Tuberculosis Association in this city.

Later in the afternoon, following the boat ride on the sun-splashed Ouachita river, landing was made at Pine Top, a picturesque spot in the bend of the river where the G. B. Cooley sanatorium is situated on a high bluff, and a charming social hour was enjoyed with a group of representative men and women awaiting to welcome the physicians and their wives.

A festive atmosphere was created in the lounge, library and dining room, where flowers of vivid hue, reminiscent of autumn, were banked with considerable artistry.

Mrs. G. E. Cooley, wearing a slate blue chiffon model, Mrs. A. D. Tisdale in aqua chiffon model and Mrs. Living

Wolf in a black lace and chiffon, extended greetings in the foyer.

Delicious chicken sandwiches, assorted pastries and a variety of sweet confections were served in the dining room by Mrs. John Pracher, Mrs. W. L. Smith, Mrs. Walter Holloman, Mrs. A. L. Peters and Mrs. G. P. Gallaspy.

The lace-covered tea and coffee table was developed in the autumn color with a wide-spreading plaque of yellow dahlias forming the central decor. Tapers in crystal candelabra burned at the four corners. Mrs. C. Gibson in periwinkle blue chiffon model, and Mrs. H. R. Frost in black chiffon and lace, presided over the silver urns placed at either end of the table.

One hundred and fifty guests were present on this delightful occasion.

The return trip down the Ouachita concluded a period of complete relaxation for the physicians attending the conference and afforded an uninterrupted conversational interlude otherwise impossible.

Miss Julia Wosman expresses delight over the splendid response of children and their parents in the purchasing of season tickets for the Clare Tree Major productions, the first of which, "Seven Wishes," written by Maurice Maeterlinck, will be presented in Monroe November 12 at the Neville auditorium.

A native of Belgium, the famous author has been driven from his home and all of his possessions have been taken because of the war in Europe. Maeterlinck and his wife are now in the United States. "Seven Wishes" is his first work in this country. Free from oppression and censorship, he has expressed his views on dictator warmakers in the play. One of the main characters is a cruel and ambitious king who is finally overthrown by being bent for five days without fire and food. Once he has suffered himself, he is more sensitive to others' sufferings. The subtitle of the play is "Bread Is Stronger Than Gold." In his usual manner, Maeterlinck personifies bread and coal, making them people who work out the overthrow of the greedy monarch.

Shirley Jean Brown, daughter of Mr. and Mrs. M. B. Brown, invited a few friends to enjoy with her the celebration of her sixth birthday anniversary at the home of her parents.

Mrs. Brown was assisted in entertaining the children by Mrs. H. F. Bryan, Mrs. G. Cooper, Mrs. T. Fortenberry and Mrs. J. R. Brown.

Following the playing of games and cards, and the awarding of prizes, refreshments were served to Marie Mathis, Charles Neil, Neva Ann Price, Terry Lou Price, Ralph Brown, Janette Erskine, Doris Jean Brennan, Betty Sisson, Mary Sisson, Peggy Simmons, Ethel Meyers, Jerry Finch, Joe Ann Simmons, Maureen Erskine, Helen Erskine, Lavonne Finch, Sunshine Meyers, Toodium Fortenberry, Betty Hamer, Margaret Ann Brown, Mary Griffin, Ethel Bourgeois, Ronnie Cooper, Jean Harrell, Lillie Belle Brown and Louise Brown.

Mrs. J. B. Kugler, chairman of the Community Chest, women's division, invited all workers in this department to attend the coffee hour on the mirror stage floor of the Virginia hotel, Thursday morning at 10 o'clock.

Mrs. Arthur Dryburgh entertained members of her two table bridge tournament at her home Tuesday afternoon. During the social interlude, following the bridge games, a refreshment course and coffee was served to Mrs. C. W. Wallace, Mrs. Vernon Marsh, Mrs. Alice Nelson Biggs, Mrs. Ned Wilson, Mrs. A. L. Harrington, Mrs. William Bendel and Mrs. Clyde Paine.

Dr. and Mrs. William Bendel spent the weekend in New Orleans with their son, William Bendel, Jr., who is a student in the medical school of Tulane university.

A special meeting of the Alpha Delta Kappa society will be held Thursday afternoon at the home of Mrs. Annette Leber at 515. Plans will be completed at this time for the first annual Founder's day dance on the Frances hotel terrace Saturday night.

## MISS MARY HAYWARD IS OFFICER OF REDHEAD CLUB

Mary Hayward, daughter of Mr. and Mrs. Edward F. Hayward of 301 College street, Monroe, was recently elected vice-president of the Redhead Club at Louisiana State University, where she is a senior in arts and sciences. Miss Hayward is on the right, and with her are Alice Robinson, secretary, and F. P. Borchers, president. Members of the Redhead Club will act as guides on the L. S. U. campus during special events. Miss Hayward is a graduate of the Neville High School, and a transfer from the Northeast Junior College at Monroe. She is a member of Chi Omega Social Sorority, and the Y. W. C. A.

## THE ROAD TO SHANI LUN

by Rita Miller Hanson

YESTERDAY, Lynn Britton has fallen in one last attempt to escape from her captor, Temu Darin who is taking her to the Prince of Shan Lun in the Mongolian desert for what Lynn supposed at first was a mere visit. Now Lynn is sitting atop a speeding camel, almost in agony from the beast's racking gait, yet still unable to get the thought of dark Temu Darin out of her mind.

Chapter 14  
Camp At Last

THE caravan was soon among the dunes, traveling sometimes between the ridges, but more often up and down, and down, over the high-peaked mounds of yellow-gray sand.

By camping time Lynn was so wrenched and tossed and twisted that she didn't care whether she lived or died. They stepped in a level canyon between two mountain-high old dunes on which a mound of vegetation and taken food. Here where a well had been dug, a small caravan on its way to Eastern China had already camped. The men were drawing water with a goatskin bucket.

Lynn's mount collapsed by joints back and forth like a vibrating bridge and with a final peevish groan dropped to the ground. As Lynn slid off, the spindly old Duchess came trotting up and led her to the dining tent. Lynn sank into a comfortable canvas chair and groaned a bit as the camel had groaned.

"How do you feel, incarnate Tara?" Temu asked.

"Anything but a goddess," she replied and closed her eyes. She was so absolutely miserable that tears wet her lashes.

"The desert," she said, sitting down in a chair beside her and bending forward to whisper her face. "Well, you see that I can get a good night's sleep tonight, and the desert is a good deal better than the camel."

She tried to smile at her captor, but it was a grimace.

He lifted one of her hands, spreading it out in his palm and looking at the beautiful, white, pink nails. He and the Duchess had caused the hand. Temu had exclaimed, "Lynn!"

The Duchess murmured that Lynn had not heard of her and as Lynn spread her fingers.

Lynn murmured, "What care I for my nails? I care for my life, and she must take care of them."

She was a white, slender, young woman, with a face that was a perfect oval, with a high forehead, and a small, pointed chin. Her eyes were a deep blue, and her hair was a soft, wavy brown. She was dressed in a simple, white, long-sleeved dress, with a high collar and a long, flowing skirt. She was sitting on a low, round, white stool, and she was looking up at Temu with a pleading expression on her face.

"I am a white, slender, young woman, with a face that was a perfect oval, with a high forehead, and a small, pointed chin. Her eyes were a deep blue, and her hair was a soft, wavy brown. Mongolian camp of settlement. They would go from tent to tent displaying little collections of bowls and flutes and rosaries. One of each had belonged to their saint, and was a treasured possession. When they found a boy child who could pick out the proper articles from the collection by memory, they believed they would have found their leader again.

"Mightn't his parents object?" Lynn asked wonderingly.

"The parents will give him up gladly and feel honored that he was chosen."

She remarked skeptically, "Then, if it's such an honor, aren't certain children sometimes assisted in the selection of the right article?"

Temu grinned. "These people are human. But sometimes beggar children seem to prove their rights to the positions and get them. I could tell you of some remarkable incidents."

He turned to the leader of the monks again. Lynn looked about. The gravelly bench on which they sat merged into a sea of dunes stretching to the rim of the inverted bowl of the sky, a yellowish-lavender light at the horizon and a faint, misty blue at the zenith. Disappearing on the skyline into the Gobi solitudes, the caravan wound its way like a string of white across a misty lavender field.

In Lynn's immediate presence, the caravan seemed to lead to Temu's camp, and he and his monks were leading to the princely camp. Lynn looked at the caravan, and she saw a string of white across a misty lavender field.

THE REIGNING FAVORITE PATTERN 8816

This is the season of seasons for that perennial classic of such deserved popularity, the smart and satisfying shirtwaist. And this lovely version will quickly make a place for itself in every wardrobe.

The graceful collar, the comely yoke, the paneled skirt—every detail blends into a perfect whole, a picture of charm for any and every occasion. There is a choice of sleeves, an inverted pleat at the center seam of the skirt for essential fitness.

An illustrated, step-by-step instruction chart comes with every pattern, and mannequin as this is a design which knows no season or climate, this is a pattern you will want to make over and over again. A perfect morning frock in cotton, a delightful, daytime frock in silk or wool, there is no end to its utility and no end to the pleasure it will provide you.

Pattern No. 8816 is designed for sizes 12, 14, 16, 18, 20, 40 and 42.

For a PATTERN of this attractive model send 15c IN COIN, YOUR NAME, ADDRESS, STYLE NUMBER and SIZE to The Monroe News-Star, Today's Pattern Service, 106-7th Ave., New York, N. Y.

Have you seen the new Fall and Winter Fashion Book? Better send for it right away. You can plan your whole wardrobe from it, from morning frocks to formal ones. You can see your own, with these simple, carefully planned patterns! Have more clothes, more individual clothes, and save more money! Please!

**WILLIAM L. HODGE ENLISTS IN NAVY**

William Lee Hodge, 18, son of Mr. and Mrs. Byron Hodge, Monroe, enlisted in the navy October 18, according to word received from the recruiting station in Shreveport.

Hodge is a graduate of Ouachita High School, completed his freshman year at L. S. U., and was a topman at L. T. I. when he enlisted.

Three other North Louisiana youths, Joseph Vachon, Smith, 18, Moultrie, Daniel Benton McNeel, 21, Shreve-

port, and John Ross Hawkins, 23, Columbia, enlisted with Hodge, and all have been transferred to the Naval Training station in San Diego, Calif., to receive six weeks of recruit training before being assigned to ships of the fleet.

## HOW OBSERVERS LOOK ON FRENCH IN LATE CRISIS

(Continued from First Page)

matic collaboration, seizes French warships or planes to be used against the British, or makes other bayonet-backed "suggestions."

The Vichy government—and especially Vice-Premier Laval and Foreign Minister Baudouin, who make no secret of their anti-British views—has just emphasized its willing cooperation with victorious Germany, declaring that it would be "imbecile, insane and absurd" to do otherwise for geographic, military and economic reasons.

France today actually is surrounded by Germany and its axis friends, dominated by German guns, and almost completely dependent on Germany economically.

Many observers consider German pressure, plus willing (or otherwise) cooperation of the present French government, can go a long way toward achieving the most of the complete collaboration the Germans demand—except France's enthusiastic participation in the war.

German control of Marseilles and other Mediterranean ports, and co-operative action in Dakar, Morocco and other strategic French colonies which will enable the Germans to extend their field of war action, are among the first "results" expected to be achieved. All of these moves would aid Germany in the expected winter war in the Mediterranean-African sector.

When it comes to Frenchmen again taking up arms, however, the general opinion is that they would be much more likely to do so if a majority still seem to believe—despite the British attacks at Oran and Dakar—that France's only hope to rise again as a nation lies in British victory.

A majority, however, is disheartened by France's catastrophic defeat, and want only peace and a chance to rebuild their shattered lives and homes.

## STATE POLICEMEN RESIGN POSITIONS

BATON ROUGE, Oct. 23.—(AP)—State Police Superintendent Steve Alford said today three officers of the Shreveport police district had resigned "in a shakeup to improve efficiency."

He said the three were Captain J. L. Atkins, Lieutenant J. B. Fleming and Sergeant James F. Bridges.

Alford said the changes were "just one made for the sake of efficiency."

(Signature of Applicant)

## PHYSICAL SETUP IN DRAFT GIVEN

(Continued from First Page)

ice will be given a blood test for syphilis.

Teeth—A minimum of three chewing teeth above and three below, meeting each other, and three cutting teeth above and three below, also meeting. Teeth which have been or can be easily restored will count, as well as bridgework.

Feet and hands—Some defects are permissible, such as an absent left thumb, loss of two fingers of either hand except where the two are the right index and middle finger, a slight clubfoot, webbed fingers and toes, and absence of one or two small toes if the foot otherwise is good.

Minimum standards for men of various heights follow:

Height	Weight	Chest	Measure
5'0"	125	34 1/2	28 1/2
5'2"	135	36 1/2	30 1/2
5'4"	145	38 1/2	32 1/2
5'6"	155	40 1/2	34 1/2
5'8"	165	42 1/2	36 1/2
5'10"	175	44 1/2	38 1/2
5'12"	185	46 1/2	40 1/2

There are not required weight and measure, but the minimum for acceptance. From 60 through 64 inches, two additional pounds of weight are required for each additional inch in height. From 65 inches up, four extra pounds are required for each inch.

Class 1A—Qualified for general military service (certain college students drawn in next Tuesday's national lottery).

In the order of the lottery, class 1 men will be given physical examinations and further classified as follows:

Class 1A—Qualified for general military service (certain college students drawn in next Tuesday's national lottery).

Class 1B—Qualified for limited military service.

Class 1C—Totally and permanently disqualified.

It is anticipated that only those in class 1A, about one man in every four registered, will be called to training under the present program. Others might be called in an emergency.

Local doctors are instructed by the regulations to watch for meningers, who have dental-fing physical defects and for patients who attempt to hide defects in order to get into the army.

Men suspected of malinger may be reported to the military police, or to the local United States attorney for prosecution. Those who mean themselves may be forced to serve anyway.

While discouraging disclosure of the tests they have designed to catch takers, national medical officers significantly warned that few tricksters would escape.

The doctors will be on the lookout for men who pretend to be blind or deaf, men who take drugs to cause abnormal heart action, who put sand under their eyes to cause inflammation, who take acid to simulate jaundice, who use fake crutches, or those who pretend insanity or epilepsy.

Positive tests are available for eyesight and hearing. Conflicting statements and talkativeness are avoided. However, some tests are difficult to expose. Complaints of pain are most frequent. Hysteria often occurs and causes confusion.

Otherwise, doctors are instructed to be particularly careful in examining for defects of vision and hearing, abnormal thyroid gland conditions, mental and nervous deformities, cardiovascular disease of the heart, emotional instability, and defects of the feet.

They also are advised not to construe the rules "too strictly or arbitrarily," but at the same time to go beyond the regulations if necessary.

UNIT CHANGES

WASHINGTON, Oct. 22.—(AP)—Changes in the status of several national guard units in Arkansas, Colorado, Kansas, Louisiana, Michigan, Pennsylvania and Wisconsin were announced today by the war department.

Major General John F. Williams, chief of the national guard bureau, said that two field artillery brigades would be organized—the 72nd to be stationed at the Seventh Corps area training center in the vicinity of Woodland, La., and the 73d, to be stationed at Camp Shelby, Miss.

The 72nd brigade will include headquarters, headquarters battery, 16th field artillery (155 MM howitzer), Pennsylvania national guard, organized from the 16th field artillery (75 MM gun), Pennsylvania national guard, 14th field artillery (155 MM howitzer), Louisiana national guard, organized from the 14th field artillery (75 MM gun), Louisiana national guard, and the 19th field artillery (155 MM gun), Pennsylvania national guard, organized from the 19th field artillery (155 MM howitzer), Pennsylvania national guard.

The 73d brigade will include headquarters, headquarters battery, 16th field artillery (155 MM howitzer), Pennsylvania national guard, organized from the 16th field artillery (75 MM gun), Pennsylvania national guard, 14th field artillery (155 MM howitzer), Louisiana national guard, organized from the 14th field artillery (75 MM gun), Louisiana national guard, and the 19th field artillery (155 MM gun), Pennsylvania national guard, organized from the 19th field artillery (155 MM howitzer), Pennsylvania national guard.

The 73d brigade will include headquarters, headquarters battery, 16th field artillery (155 MM howitzer), Pennsylvania national guard, organized from the 16th field artillery (75 MM gun), Pennsylvania national guard, 14th field artillery (155 MM howitzer), Louisiana national guard, organized from the 14th field artillery (75 MM gun), Louisiana national guard, and the 19th field artillery (155 MM gun), Pennsylvania national guard, organized from the 19th field artillery (155 MM howitzer), Pennsylvania national guard.

The 73d brigade will include headquarters, headquarters battery, 16th field artillery (155 MM howitzer), Pennsylvania national guard, organized from the 16th field artillery (75 MM gun), Pennsylvania national guard, 14th field artillery (155 MM howitzer), Louisiana national guard, organized from the 14th field artillery (75 MM gun), Louisiana national guard, and the 19th field artillery (155 MM gun), Pennsylvania national guard, organized from the 19th field artillery (155 MM howitzer), Pennsylvania national guard.

## HITLER, FRANCO IN CONFERENCE

(Continued from First Page)

tions arose that the Reichsfuehrer was concerned over a possible upsurge of rebellion in the conquered republic.

Authorized quarters in Berlin described the meeting as the first answer to British Prime Minister Winston Churchill's efforts to "stir up" the French against the Rome-Berlin axis.

Simultaneously, Premier Marshal Philippe Petain's French government at Vichy pressed an attack on a wide-spread "Communist" movement in unopposed France, accused of spreading propaganda in favor of the "Free French" leadership of General Charles de Gaulle.

Police raided a Communist headquarters in Marseille, arresting 75 persons, including 12 women, and confiscating a large amount of de Gaulle propaganda. Other arrests were announced in Vichy's suburbs, at Lyon and in the Loire department.

Foreign circles in Rome heard that Hitler sounded out Laval on a plan for a temporary settlement which would make France, Italy and Germany "collaborators" in the war with Laval promised still greater power in France, and Germany to aid in French reconstruction.

Premier Marshal Petain, the 82-year-old "hero of Verdun" in the World War, who surrendered to Napoleon in 1870, was reported to have strongly opposed to any pact France-German action against England, but dispatched from Bonn, Switzerland, and there were indications Laval might replace Petain as actual leader of the French government. Petain might remain as a figurehead, it was said.

On the other hand, a head of state over London remained in the picture, touring from the capital, making "humiliating" game, he said, many weeks and all but assured German victory. The propaganda of the pact to second German propaganda efforts, and the French government, Petain might remain as a figurehead, it was said.

Hitler, however, seemed to have a plan to offer a pact from the capital, making "humiliating" game, he said, many weeks and all but assured German victory. The propaganda of the pact to second German propaganda efforts, and the French government, Petain might remain as a figurehead, it was said.

## ARMOR STUDIED

Scientists Seek Break-down Point; Four in Special Work

CLEVELAND, Oct. 23.—(AP)—A scientist disclosed today that the California Institute of Technology is progressing in efforts to determine in the laboratory the breakdown point of armor plate and gun mountings.

Associate Professor Donald S. Clark said the west coast school has four research men at work in the comparatively unknown field of velocity-impact tests.

Although "actual firing of a shell

against a section of armor plate is a conclusive test of the respective merits of shell and armor," Dr. Clark explained, "such tests are expensive and do not assist in reaching a fundamental understanding of the behavior of material when it is subjected to rapidly applied loads."

Experiments prove that certain varieties of stainless steel reach a sharp breakdown rate at speeds as low as 400-500 feet a second. In some materials, Dr. Clark continued, "the force required to bring about failure is higher when that force is applied suddenly than when applied slowly."

Tests also have been made at velocities to 2,500-3,000 feet per second—above the speed of the usual naval shell but less than that of the average rifle bullet. These, however, have not been conclusive and new testing methods still are being devised, Dr. Clark said.

The California Tech researchers are using a rotating disc which has a "considerable amount of energy." On the circumference is mounted a hammer which engages one end of the specimen. On the other end is a cathode-ray oscillograph which measures electricity for force and deformation.

The American Society for Metals, one of four technical organizations participating in the congress, today honored A. W. Mikhlelt, 77, Elizabeth, N. J., with its annual Albert Sauer award for distinguished service to metallurgy.

Mikhlelt, who received the medal in absentia, was credited by the society with devising the "carbonyl process" employed to place the blue-black finish, popularly known as "blue steel," on small arms. He also contributed methods aiding in hardening steels. The award was received for him by P. C. Osterman, a long-time associate.

**IF RHEUMATIC PAIN HAS YOU DOSING AND HOPING**

Then prove to yourself what results you can get without risking a cent.

Open your own way toward the deliverance others have enjoyed. Just make up your mind you're going to use something that will get to work on that rheumatic pain. What you want is help you can feel. So ask for Prescription C-2223. You don't need to be put off with any ifs or buts . . . You're pleased . . . you're satisfied . . . you're happy with the results . . . or you get your money back. If you suffer from rheumatic pains, rheumatic fever, muscular aches and pains, don't put off this happy plan. Ask your druggist today for Prescription C-2223, 60c, \$1. Sold everywhere.

## POST NUMBERS OF CONSCRIPTS

It Will Require Patience For Registrant To Find His

It will require patience for the registrant for selective service to find his serial number, because he will have to thumb through page after page of names until he finds his own with the number beside it.

Lists of the registrants of Ouachita parish were posted outside of the office of Howard Willard, chief clerk for the board number one, on the eighth floor of the Ouachita Bank building, and also outside the doors of the Ouachita parish office, board number 2, West Monroe city hall second floor. G. R. Williams is chief clerk of board number two.

Board number one includes the city limits of Monroe, while board number two includes territory beyond the city limits of Monroe and within Ouachita parish.

In order to find his name the registrant will have to look hard for his serial number, for his name is not listed in alphabetical order but in numerical order.

However, knowledge of serial numbers will not be so important as knowledge of order numbers which will be given after the national lottery has begun next Tuesday in Washington, D. C. Board officials pointed out. The order in which serial numbers are drawn in the lottery will determine the order numbers and each draft board is required to

have a list of the names of the

registrants for each board.

post the serial number and order number of each registrant.

In Ouachita parish the complete list of names and serial numbers was posted Tuesday outside the respective offices in the Ouachita Bank building and the West Monroe city hall.

**BOY, SIX, INJURED IN FREAK ACCIDENT**

KANSAS CITY, Oct. 23.—(AP)—Six-year-old Victor Koontz made a bed of leaves in the street. Then he lay still while playmates covered him with more leaves.

A pickup truck approached and Victor's friends fled, shouting a warning. Victor thought it was part of the game.

The truck passed over Victor's body. Doctors said the boy suffered severe internal injuries and several rib fractures. Police exonerated the driver.
